

The **ULTIMATE** **TWIN** WATER SOFTENER

Nothing is better than having great water to cook, clean, bathe and drink!

Benefits of Soft Water

Soft water savings can really add up. All water using appliances will perform better and last longer. Soap and shampoo usage drops dramatically, and your hair and skin will feel cleaner and softer.

Clothes will last longer, be softer, whiter and brighter. Soft water prevents soap scum and mineral deposits on sinks, showers, tubs and toilets. Dishes clean up more easily, and will be spot free. You'll use fewer harmful chemical cleaners, which means a safer home and healthier environment.

Vern Dale's Water Center is a family owned and operated business that started in 1958.

Our greatest achievement is a satisfied customer who recommends us to a friend. Customer satisfaction is paramount to our success, so we make this commitment. We will provide quality products, service and support with honesty and integrity.
